INORMS 2021

The Research Manager and Administrator Network Japan (RMAN-J) is pleased to host the 2021 meeting of the International Network of Research Management Societies (INORMS). Considering the health and safety of our delegates, presenters, and sponsors in this unpredictable situation of COVID-19, the meeting will be held virtually 24 to 27 May, and all the pre-recorded sessions will be available on demand from 24 May to 30 June. Your understanding and support would be greatly appreciated. This year's theme is **“Promoting Diversity in Research and Research Management Collaborations: More Trans-National, More Trans-Disciplinary, More Trans-Sectoral.”** INORMS 2021 provides research managers and administrators from across the globe with the opportunity to network, discuss issues of research management and develop professionally. INORMS 2021 will have the following tracks:

1. Global Collaboration
2. Partnerships and Innovation beyond Academics
3. Research Evaluation and Impact
4. Professional Development of Researchers and Research Managers
5. Research Integrity and Responsible Conduct of Research

INORMS was formed in 2001 to bring together research management societies and associations from across the globe.
